NOTES ON EDUCATION.

The action of the San Francisco School Board i

held in West Virginia, and teachers and citizens alike showed an enthusiastic desire to learn new methods. High schools are increasing in the

It was suggested at the recent meeting of the Pennsylvania teachers that it might be a good idea to have one course in the common schools for those who intend to enter college or professional life, and another for those who must leave school at an early age for the farm or workshop.

The position of principal in a San Francisco school is not without its excitements. One of the primary school principals in that city lately received a letter in which a Mr. Cohen threatened her life if his daughter was refused admission to her school. The Board of Education ordered that this alert gentleman's children should be refused the privileges of the schools.

Teachers in England are now getting much higher salaries than they did a few years ago. Out of 12,981 certificated teachers only 132 are receiving less than \$250 a year. Two hundred and thirtytwo teachers get \$1,250 to \$1,500, and 137 are in receipt of \$1,500 and over. Those in receipt of \$250 to \$375 a year are now 10.72 per cent of the whole; in 1874 they were 15.13 per cent.

The French Government has organized a commis sion to cultivate the sense of beauty in the young. Its president proposes to creet school-buildings at once elegant and appropriate, to decorate the larger colleges with beautiful friezes, and to ornament the bedrooms of the boys with tapestries and heliogravures of the best masters. He wishes also to establish in each lycee a small and attractive

Kindergarten methods have been successfully in troduced in the primary grades of the Indianapolis schools. Care is taken that there shall be no overstudy among the school children. Under the present district regulations there is no child under the seventh grade who studies more than one hour a day at home. There are only sixty children in the seventh and eighth grades who study two hours a day at home.

The system of practice-teaching is pursued in the Indianapolis Normal School as well as in that at Worcester, Mass. Graduates are given the work of regular teachers in the schools for five months. Over each two is placed a successful instructor as "critic teacher" who stands in the relation of friend and adviser. She meets her pupils every evening and spends au hour with them criticising the work of the day.

Some of the pedagogic authorities of Switzerland have discovered that the period between fourteen and twenty is a forgetting age, and that many of the young recruits while they know bare reading, writing and arithmetic, have forgotten for want of immediate use or application all they had learned of geography and history. Accordingly in nearly all the Cautons, "Fortbildungs-Schulen" -or schools for continuous education -- have been established, and in many of them attendance is compulsory. Zurich has no school of this sort, but extends the obligatory attendance at the ordinary day school to a much later period in the youth's life,

The leading teachers of the colored schools in Philadelphia have sent a letter to the secretary of the Board of Education, in which they contradict his statements in regard to the laxity of discipline, easy examinations and irregularity of attendance in those schools. His declaration that "colored teachers are not asked to know as much as white teachers" has especially exasperated them, and they claim that their certificates are the result of rigid examinations—ten of the fifteen colored teachers having passed the regular and five the special examinations. They assert that the school records will show that the statements in regard to the acquirements and conduct of their pupils are inserved.

A speaker at the meeting of the National Educa tional Association explained why teachers are out-ranked by the members of the other professions. It is because, taken as a whole, he said, the teachers are entitled to nothing better. Their work makes them narrow-their lives are almost necessarily monastic, they have not money to travel, not time for reading and thought, and their minds are constantly brought in contact with inferior ones. " The professor," added the speaker, "should take part, so tar as his duties will allow, with other men in those active concerns of life in which many must cooperate—so that his pupils may see that he is not only a man among boys but a man among men. No ould allow himself to be a mere teacher.'

In the Honor division of the Oxford Examina tions for Women, three of the sections-modern languages, English literature, and philosophy-have been attempted this year for the first time. Somerville Hall has obtained a first class in modern languages, two second classes in the same section, and a second class in modern history. Lady Margaret Hall has obtained a second class in philoso phy, and a second class in English literature. There are also various third classes. Evidently the examiners determined to maintain a high standard, of which the solitary first class out of ten honor can didates is a salutary indication. To this record should be added the success of a Somerville Hall student in another field. One of its scholars appears tenth in the whole list of those matriculating in honors at the London University, and first among the women candidates. Altogether the Oxford women's scheme has made a good start.

Mr. A. J. Rickoff, of Cleveland, said of geography at the Atlanta meeting: "What would be the result of an inquiry among the more intelligent tradesmen and members of the professoins as to the knowledge of geography which they have retained or accumulated, we will say, at from thirty-five to fifty years ! I do not speak of that alone which they learned in childhood but of the sum total of all the knowledge they may claim at the time of the inquiry. I think it would be found that they know very little as compared with the fourteen or fifteen year old miss who has just passed her examination for the high school in any one of our towns and cities, except as to those points which they have in later years looked up for purposes of business or pleasure. Not having any relation to the course of reading or business pursuits of matured years, the names and locations of rivers, mountains, lakes, cities, capes, nations, etc., drop from the memory of most men as the features of people who pass us in rapid moving procession. The study having served its purpose in the recitation room and on examination day is promptly dismissed from the mind. Test the value of a study thus pursued by any standard you please, and it is valueless, except as to its general outlines, which can be learned in one-third of the time now allotted to it. As studied it contributes tittle to our stores of useful information and still less to the discipline of mind, inasmuch as it begets a habit of careless indifference to what we have learned.³³

JOHN T. LESHER & CO.

Marble and Slate Mantels. WOOD AND SLATE MANTLES.—The most varied and complete stock of fine mantles now on exhibition. T. E. STEWART & OO. 75 West 23d-st. New; MINES AND MINING.

WEDNESDAY, Aug. 3-P. M. The business done at the Mining Stock Exchanges to-day was more general in its character, and the State Lines, although still active, were less special features of the dealings, than usually has been the case recently. There also was observed a better tone in the market, and operators seemed to be imbued with a little spirit. State Line Nos. 2 and 3 was still strong and rose from 4.90 to 514@51s; Nos. 1, and 4 sold up to 120, but closed unchanged at 110; and Oriental and Miller was 1 cent higher at 91, after 92 cents. Some of the Leadville shares were unusually active and strong: Little Chief sold un to 1.55@1.50, Chrysolite at 5½, Leadville Consolidated at 1.45. Hibernia rose from 60 to 64 cents, closing at 61 cents, A large trading was done in South Hite between 38 and 50 cents, and it finally ended at 45 cents against 35 cents yesterday. The Comst. cks were weak, but Consolidated Virginia closed at 1.90, California being 5 cents lower at 84@30 cents. Rising Sun sold at 2½. The markets closed active and strong. active and strong.

POURTH CALL-2 O'CLOCK P. M.

Oakland, 5; Meadow Valley, 35; Alta, 50.

LEADVILLE, Col., Aug. 3.—The large plant of machinery on the Denver City, which it has taken months to complete, is ready to run, and is expected to start up to-day. It will take only a few days to drain the mine and resume work on the ore body developed before the mine was closed.

In the Argentine group a great strike has been made. Five tons of ore just settled for netted \$600 to the ton, and 250 tons now out will net \$200 per ton.

ton.

In July Chrysolite netted, over all expenses, \$128,000. The mine, however, is being worked far beyond its capacity, and this production is not likely to be maintained for more than thirty days longer. Morning Star has discharged nearly all the men from the mine. No ore is to be taken out pending negotiations for the sale to the Evening Star owners, the option extending to the 15th.

Eleven car-loads of machinery for the Robert E. Lee have arrived.

Wilson Waddingham is here. A settlement of the Jacque suit against the Robinson Consolidated is probable. The Robinson mine is opening splendidly at all points.

probable. The Robinson mine is opening splendidly at all points.

Tombstone, Ariz., Aug. 3.—Sulphuret started again yesterday, and is excavating a chamber for the pump, which is expected daily. This will be the first mine in Tombstone to work below the water level. Better ore is expected than has yet been found.

Bullion valued at \$96,000 was received in this city yesterday from the mines.

Stormont superintendent telegraphed yesterdayr "Clean-up shipment to-day, \$5,300. Total for month, \$31,000."

At the Green Mountain mine the sulphuret ledge has been cut in the face of No. 5 tunnel, showing good ore.

At the Green Mountain mine the sulphuret ledge has been cut in the face of No. 5 tunnel, showing good ore.

Barbee & Walker superintendent telegraphed, August 2: "Shipped to-day one bar bullion, value \$2.000. Stopped yesterday; repairing engine. Drift on lower level improving. Battery assays \$33 per ton."

The superintendent of the Cherokee mine reports that the main shaft at the depth of 200 feet struck the ledge of the old mine, and that the first blast tapped the water which has been standing in the old works. This water will soon be pumped out and the sinking resumed.

An official telegram from the agent of the Varkinf Mining Company at South Mountain, Idaho, dated August 2, announces a rich strike of five feet in the Avenne mine and also a strike in the Black Prince. It is expected that the furnaces will be running before the end of this month.

Father de Smet superintendent writes, July 18: "I have the mine expenses reduced to a low figure, as will be shown by our statement for June, which goes forward in a day or two. The Deadwood-Terra Company has joined with us in locating and starting a tunnel as deep as a dump can be had in Deadwood Creek. This tunnel will cut the vein 110 feet deeper than any of our present workings. The construction of the additional twenty stamps is progressing fast enough to be in readiness on the arrival of the machinery. I drew for \$24,000 on the 15th inst., for June expenses."

Mining.

CLOSING PRICES OF PHILADELPHIA STOCKS.

WEDNESDAY, Aug. 3-P.M. The life of to-day's stock market was derived rom the coal stocks-and of them Reading, with transactions amounting to 38,000 shares and an advance in price from 63 to 67, was the leader. The reason of the movement in Reading stock is now, as it has been, an unsolved mystery. There is no pretence that the present financial condition of the company, or any probable near future, warrants the figures at which the stock for a long time has been ruling. The movement certainly is not based upon the newly proposed scheme of reconstruction which is given in full elsewhere. Here it is sufficient to say that the scheme contemplates a permanent debt of \$100,000,000, bearing interest from 3 to 6 per cent, and an issue of about \$12,000,000 new stock as a bonus to holders of the old bonds to induce them to exchange for the new. At the close the stock was selling at 65%. Delaware, Lackawanna and Western rose from 123% to 12534 and ended at 12478, and New-Jersey Central rose from 95% to 984 and closed at 974. And all this despite the fact that prices for coal are more unsettled than at any previous time this year. These movements gave a strong tone to the whole market during the first half of the day, and the improvement in prices was general, and in some instances, other than with the coal stocks, marked. After midday,

however, the market was duil and drooping all

around, and finally closed "saggy." There was very

little said about the railroad war or its probable set-tlement. The facts are that West-bound rates to-day

were at their worst: first-class freight being taken

on the basis of 35 cents per 100 pounds to Chicago

information is given that contracts running to Jan-

uary 1, 1882, have been made. Gevernments were in better demand, but the transactions at the Boards amounted only to \$70,000. The final biddings for the continued 6s, the 412s and 4s were advanced 1s per cent, and the market closed strong at the following quotations:

D.S. 4¹24, '91, rec. . 118³5, 118³6, U.S. cur 6a, 1897, 133
U.S. 4¹25, '91, rec. . 118³5, 118³6, U.S. cur 6a, 1897, 133
U.S. 4¹25, '91, c. . . 116³5, 114³6, U.S. cur 6a, 1893, 133
U.S. 4a, 1997, rec. . 116³5, 116³5, U.S. cur, 6a, 1893, 134
U.S. cur 6a, 1895, 131
U.S. cur 6a, 1895, 131
U.S. cur 6a, 1895, 131
U.S. cur 6a, 1895, 131 In State bonds the dealings were small. Louisiana consols rose from 684 to 70, and Tennessee 6s were 1 per cent higher at 75. North Carolina special taxes sold at 612, and South Carolina non-

fundables sold at 912. Of city bank stocks, twenty shares of America sold at 14212. There were no special features in the small business that was done in railroad bonds. Generally the changes in prices, where there were any, were to lower figures. Mobile and Ohio debentures were exceptions to the rule, and the firsts sold up to 10012, and the seconds rose from 68 to 7114. Erie second consols declined from 103% to 102% and rallied to 103% and the funded 5s brought 100. Boston, Hartford and Erie firsts were ½ lower at 78½. Canada Southern firsts sold at 100% and for small lots at 100% 100% New-York clevated firsts were steady at 116, and Metropolitan firsts sold at 100% 100% 116, and Metropolitan firsts sold at 100% 125, but Rochester and Pittsburg incomes were ½ for 125 kg/125, the firsts, La Crosse Division, also bringing 125. St. Paul and Sioux City firsts sold at 113½, and St. Paul and Omaha consols were ½ higher at 103%. Enver and Rio Grande firsts fetched 118½, and consols 116¼. Texas and Pacific incomes were ¼ higher at 82, and firsts Rio Grande Division, were ¾ higher at 96%.

The Sub-Treasury to-day gained \$439,033 on balance, made up by a coin gain of \$489,412, less a currency loss of \$50.379. This makes the net gain since Friday \$2.316,984. There is no change in money rates, the mar-et +eing abundantly supplied at 2½ 3 per cent. The United States Treasurer at Washington to-day received \$131,000 National bank notes for redemption. The customs receipts were \$793,009, and the internal revenue receipts were \$361,150. The Clearing House statement to-day is as follows: Exchanges, \$129,977,577; balances, \$6,063,098. The transactions at the Sub-Treasury covered: Receipts, \$1,279,686; payments, \$840,653; currency balance, \$4,700,722; coin balance, \$77.016,975.

The foreign exchanges continue dull, but the market is fully steady with an inclination to an and the first and all the sub-Treasury for the first and and the sub-Treasury covered: Receipts, \$1,279,686; payments, \$840,653; currency balance, \$4,700,722; coin balance, \$77.016,975. Erie second consols declined from 10334 to

The foreign exchanges continue dull, but the market is fully steady with an inclination toward a hardening of rates, Annexed are the posted quotations:
